

Centre Director, Prof. Habil. Dr. Zenonas Dabkevicius
Lithuanian Research Centre for Agriculture and Forestry

Acknowledgement

This letter confirms and acknowledges Jurate Aleinikoviene and Kestutis Armolaitis, Institute of Forestry, as organizers of a meeting in the Nordic-Baltic CAR-ES network. The meeting took place 19-22 March 2014 in Birštonas, Lithuania. The programme included a seminar on ecosystem services from forests, including forest carbon, water and biodiversity, and several smaller project and network meetings. The meetings were very well organized, as was an interesting tour with a visit to the Institute of Forestry and various forest and energy-related highlights of the region.

Yours sincerely,

Inge Stupak
Associate professor
